

**SATELLITE TV SERVICE: CHANNEL UPDATES**

INFORMATION FOR INSTALLERS

**UPDATES SCHEDULED FOR THURSDAY 6 NOVEMBER, 1AM**

The following changes will be made to Freeview’s satellite TV service:

- **Whakaata Māori** (Freeview channel 5) goes HD and moves from TS22 to TS21.
- **CH200** (Freeview channel 200, SD) added to LCN 200 (already on terrestrial TV).
- Other channels on TS21 will update to H.264 video and HE-AACv1 audio to facilitate that.

Changes are marked in red in the table below | Source: Kordia

Radio Aotearoa	71	1936	Radio	HE-AAC v1
Radio NZ Concert	51	1930	Radio	HE-AAC v1
Radio NZ National	50	1929	Radio	HE-AAC v1

**IMPACT**

- These changes have **no impact** on Freeview’s terrestrial TV or streaming TV services.
- For those accessing Freeview’s satellite TV service: most TVs, satellite boxes/PVRs are expected to pick up these updates automatically.  
Any device that fails to auto-update may be missing the updated channels, a simple retune can restore all channels. If required, retune guides can be found at [freeviewnz.tv/retune](http://freeviewnz.tv/retune)
- **Please schedule manual MATV system updates where required.**
